

CIC

2025

16th IEEE International Conference on Cognitive Infocommunications

Vienna, Austria

8-9 September

FIRST SUBMISSION DEADLINE: 19 MAY, 2025

PAPERS CAN BE PRESENTED ONLINE AS WELL

Conference homepage: <https://scitope.com/coginfocom25>

Extended Papers will be invited to Special Journal Issues

Scope

Cognitive infocommunications (CogInfoCom) investigates the link between the research areas of infocommunications and cognitive sciences, as well as the various engineering applications which have emerged as the synergic combination of these sciences. The primary goal of CogInfoCom is to provide a systematic view of how cognitive processes can co-evolve with infocommunications devices so that the capabilities of the human brain may not only be extended through these devices, irrespective of geographical distance but may also be blended with the capabilities of any artificially cognitive system. This merging and extension of cognitive capabilities are targeted towards engineering applications in which artificial and/or natural cognitive systems are enabled to work together more effectively.

Chairs

Horst Treiblmaier, Modul University Vienna, Austria

Péter Baranyi, Corvinus University of Budapest and University of Pannonia, Hungary

Co-Chair

Anna Esposito, Università degli Studi della Campania "Luigi Vanvitelli", Italy

Atsushi Ito, Chuo University, Japan

Honorary Chairs

Helen Meng, The Chinese University of Hong Kong and Centre for Perceptual and Interactive Intelligence

Mehran Mesbahi, University of Washington, USA

Yurii Nesterov, CIAS at the Corvinus University of Budapest, Hungary

Yeung Yam, The Chinese University of Hong Kong Shenzhen Research Institute
